Media Statement: June 8, 2016   **For Immediate Release**

RegDOX Solutions Inc. Publishes Whitepaper Mapping Cloud Storage Compliance to the Defense Federal Acquisition Regulations Supplement (DFARS)

Nashua, NH – June 8, 2016 -- RegDOX Solutions Inc., the only provider of a cloud solution for the secure storage, collaboration, and exchange of documents and files containing ITAR-defined Technical Data, today announced the availability of a whitepaper reviewing how that solution also enhances compliance with the Defense Federal Acquisition Regulations Supplement (DFARS). In doing so, RegDOX Solutions has demonstrated its unique ability to provide a single cloud solution that is compliant with both the ITAR and DFARS.

The RegDOX® ITAR System is a robust virtual data room solution that exceeds the stringent requirements computer content requirements of the DFARS. RegDOX® safeguards unclassified controlled technical information (UCTI) that either resides on, or is in transit through, covered contactor information systems. Cyber incidents are recorded thus enabling reporting as required in the DFARS.

The RegDOX® System goes beyond minimum compliance with the DFARS. It incorporates an intuitive, yet highly functional user interface. It audits and records all actions involving documents and files. And all of this is achieved in a cost-effective solution that enhances enterprise productivity while ensuring regulatory compliance regulations.

RegDOX Solutions' CEO and President William O'Brien issued the following comment when announcing the release of this whitepaper:

"*RegDOX Solutions has a unique line of cloud-based product offerings, providing ITAR, EAR, DFARS, HIPAA, and Corporate compliance options for both large enterprise and small to medium sized businesses. RegDOX is the sole provider for ITAR technical data compliance solutions for the public cloud. We are proud to announce that this same service is extended to DFARS compliance.*"

About RegDOX Solutions Inc.
